

**Public/Private Industry Advisory Council  
Virtual Meeting, September 7 & 8, 2023**

<b>Meeting Location:</b>
Virtual Meeting: (link in calendar invite) All times Eastern Standard Time

<b>Day 1 – September 7</b>	
10:00am – 10:10am	<b>Welcome</b> Bob Majerus, Hensel Phelps, PIAC Chair

10:

0am – 11:40am	<b>The Growing Compliance Requirements Tied to Federally Funded Projects.</b> The Federal Government has continued to increase the compliance requirements imposed on all participants involved in projects in which Federal funding is included. In addition to the number of requirements and the broader number of project participants they cover, the clarity of such requirements has grown increasingly vague while the enforcement has grown more frequent and penalties more severe. We will be discussing how PIAC members are interpreting and handling these requirements, how such requirements are affecting project progress, new labor rules, and the possible effect of new pending prevailing wage laws. Introduced by Ron Ciotti, Hinckley Allen, PIAC Vice Chair
